Education

Meerut Institute of Engineering and Technology — Meerut, India
Bachelor of Technology in Computer Science — ***CGPA: 7.8/10*** — *Sept 2020 – June 2024*

Dron Public School — India
Class XII — ***Percentage: 84%*** — *Apr 2019 – Mar 2020*

Dron Public School — India
Class X — ***Percentage: 78%*** — *Apr 2017 – Mar 2018*

Experience

Software Development Engineer — Aug 2024 – Present
The Unified Cloud Pvt Ltd — *Noida, India*

- Developed and deployed a **custom AI-powered chatbot** using **.NET, ASP.NET Core, Azure OpenAI, and Azure AI Search**, improving query resolution efficiency by **30%** and reducing manual intervention
- Designed and implemented **RESTful APIs** using **ASP.NET Core**, enhancing system scalability and reducing response time by **25%**
- Enhanced web portal performance by optimizing backend logic using **C#, .NET Core, and SQL Server**, improving data retrieval speed by **20%**
- Contributed to the development of an **AI Factory portal** to manage multiple POC chatbots, implementing user activity tracking features including login details, chatbot usage, and session insights
- Designed and implemented complex data retrieval using **LINQ joins** to aggregate user activity and chatbot interaction data, improving monitoring and reporting efficiency
- Delivered **scalable features** by collaborating with cross-functional teams, improving release efficiency and overall system stability

Projects

AI Chatbot (Structured, Unstructured & Hybrid) — 2024

- Developed a **multi-model AI chatbot** using **.NET, ASP.NET Core, Azure OpenAI, and Azure AI Search**
- Implemented document-based retrieval using **Azure Blob Storage** and **AI Search indexers** for chunking and semantic search
- Processed structured data using **.NET Core, Azure Functions, and SQL Server** for dynamic LLM-based responses
- Enabled hybrid features like **image analysis and entity extraction** using **Azure Document Intelligence**
- Designed **RESTful APIs** to integrate frontend, backend, and AI services

Financial Data Automation Platform — 2025

- Built an **AI-powered platform** using **.NET, Azure OpenAI, and SQL Server** for financial data processing
- Implemented authentication and file workflows using **ASP.NET Core** and **Azure Blob Storage**
- Developed UI with **React.js** for file uploads and real-time financial insights
- Designed **RESTful APIs** for data processing and conversational query handling

Technical Skills

Languages: C#, JavaScript

Frameworks & Technologies: .NET Core, ASP.NET Core, ASP.NET MVC, Web API, Entity Framework, React.js, HTML, CSS

Databases: SQL Server, MySQL

Cloud & AI: Azure OpenAI, Azure AI Search, Azure Blob Storage, Azure Functions

Tools & Platforms: Visual Studio, VS Code, Microsoft Copilot Studio, Power Platform
