Education

KIET Group of Institutions, Delhi-NCR — Ghaziabad, Uttar Pradesh
Master in Computer Application (MCA) — *2022 - 2024*

R. H. Govt. P. G. College, Kashipur — Kashipur, Uttarakhand
Bachelor of Science (PCM) — *2015 - 2019*

Janta Inter College, Nainidanda — Pauri Garhwal, Uttarakhand
Uttarakhand Board of Education (Class XII) — *2014 – 2015*

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, Java.
Specializations: Generative AI, LangChain, Prompt Engineering, LLMs, MCP, Multi Agent Systems.
Frontend Development: React.js, Next.js, Tailwind CSS, Material-UI.
Backend Development: Node.js, Express.js, WebSocket's, Zod, REST APIs, Fast API, Azure function.
Databases & ORMs: PostgreSQL, MongoDB, MySQL, Prisma ORM, Redis.
Others: Git, Docker, GitHub Actions, Kubernetes, AZURE OpenAI, LangChain, Autogen.

Experience

Software Development Engineer — August 2024 – Present
The Unified Cloud Pvt Ltd — *Noida, Uttar Pradesh*

- Built enterprise-grade GenAI chatbots and dashboards using structured, unstructured, and hybrid data at scale.
- Developed high-performance structured-data chatbots using LangChain, Python, SQL Server, and Azure Functions, optimizing query execution and reducing response latency in production systems.
- Engineered large-scale unstructured data retrieval pipelines using Azure AI Search and Azure Blob Storage, enabling fast semantic search across 100k+ documents with high relevance.
- Created GenAI dashboards for image processing, file analysis, and entity extraction to automate workflows.
- Designed scalable AI platforms using Fast API APIs, AutoGen multi-agent systems, centralized MCP servers, and reusable RAG pipelines.
- Built hybrid RAG-based chatbot systems combining SQL databases and unstructured documents, achieving over 90% query resolution accuracy and improving response reliability.

Projects

Mind Vault – Your Second Brain | *live link* — Aug 2025 - Nov 2025
Tech Stack: *ExpessJs, MongoDB, React, Nodejs, TypeScript, AzureOpenAI*

- **Built** Mind Vault, a full-stack Second Brain platform to securely store and manage tweets, YouTube content, Notion docs, PDFs, images, and code files with user-level isolation.
- **Implemented** secure authentication using **JWT with HTTP Only cookies**, protected APIs, and session handling with **Node.js, Express, and MongoDB**. **Integrated Supabase Storage** for secure document uploads with size limits.
- **Designed and developing** an **AI-powered "Ask Your Brain" feature** enabling conversational querying and intelligent retrieval of user-stored knowledge.

Excalidraw Clone | *live link* — Dec 2025 - current
Tech Stack: *ExpessJs, PostgreSQL, React, Nodejs, TypeScript, WebSocket, Turborepo, Prisma ORM*

- Built a real-time **collaborative whiteboard** supporting multiple concurrent users with synchronized interactions and low-latency updates.
- Implemented **WebSocket-based bi-directional communication** achieving low latency for simultaneous real-time interactions.
- Designed a **custom Canvas rendering** engine and secured backend APIs with JWT authentication for scalable, multi-user access.

Achievements & Certifications

- Solved 400+ questions on various platforms like Leetcode, Coding Ninjas and GFG.
